

Delaware Municipal Maps

This is a collection of PDF maps, in standard letter-size landscape format, of incorporated municipalities in the state of Delaware. These maps are based on the Delaware Municipal Boundary data maintained by the Office of State Planning Coordination. Every effort is made to update the maps in this document when annexation takes place. As always, the most accurate legal representation of municipal boundaries can be found in municipal charters and in planning documents maintained by municipal governments. For more information, please visit www.state.de.us/planning/info/munbounds/munbounds.shtml
